## FOREWORD

The purpose of this book is to assist the researcher in locating early marriage records in Missouri and to provide an additional resource for identifying settlers who were in the state prior to the first and second censuses of 1830 and 1840.

All of the marriage records listed here are available for certification at the appropriate county courthouse. It is recommended that when a marriage is located in this book a copy of the record be obtained from the county recorder's office. This volume is designed as an index to the records, not as a replacement for them.
